EMPowering schools' Action Fostering Teachers' Innovation
Empathy & Support within the Educational community

APRIL 2024

TRAINING COURSE

Welcome back to **Empatise**! We're excited to share our latest news: the launch of our new educational resources! These tools are designed to help teachers gain valuable insights and practical tools, fostering student engagement while addressing **educational poverty** and **reducing school dropout rates**.

EDUCATIONAL COMMUNITIES

The participants co-developed new **models** of **educational communities** connecting schools, public bodies and private organisations working with adolescents in order to share resources to fight educational poverty and promote the integral development of teenagers' personality.

Co-design workshop in Espinho Portugal (17-20 October 2023)

Thanks to the exchange of know-how between the actors of each local educational community and the co-design of a tool dedicated to student empowerment, an **"Individual paths open dashboard"**, an interactive digital tool dedicated to the development of individualised paths for students, has been developed to be tested by educators and students!
